WHAT IS THE MAKE & GROW PRACTICAL LEARNING PROGRAMME?

The Make & Grow Practical Learning Programme is an **individual practical learning programme** designed for learners who achieve their best through hands-on, purposeful work.

Working alongside a skilled practitioner, learners become part of the Make & Grow team, completing **authentic projects** that solve **real problems** within their school community. Every session combines practical learning, personal development and employability skills through **meaningful work** with a **genuine purpose**.

Every project begins with a **real request** from the school and is delivered using the **Make & Grow Method™**, providing learners with an authentic experience that mirrors the world of work.

A 1:1 PRACTICAL LEARNING EXPERIENCE

Working alongside a skilled practitioner, completing real projects with real purpose.

*Not mentoring.
Not just support.
Real work.
Real impact.*

LEARNERS DEVELOP:

Practical and vocational skills

Confidence and resilience

Communication and teamwork

Independence and responsibility

Problem-solving and critical thinking

Pride in their achievements

Employability and workplace behaviours

A stronger sense of belonging within their school community

REAL JOBS

Responding to real requests from the school

REAL SKILLS

Developing skills for life and work

REAL IMPACT

Improving the school environment

REAL FUTURES

Building confidence, opportunity and success

THE MAKE & GROW METHOD™

A PRACTICAL LEARNING FRAMEWORK THAT DEVELOPS SKILLS, CONFIDENCE AND INDEPENDENCE THROUGH AUTHENTIC WORK WITH A REAL PURPOSE.

The Make & Grow Method™ is a structured approach to practical learning where learners complete genuine tasks requested by their school or community. Rather than taking part in simulated classroom activities, learners work alongside a skilled practitioner to **solve real problems, develop transferable skills** and experience the satisfaction of completing meaningful work.

Every project is designed to mirror the expectations of the workplace while providing a safe, supportive environment where learners can grow in confidence and independence.

THE FIVE STEPS OF THE MAKE & GROW METHOD™

1 RECEIVE THE JOB

Every project begins with a genuine request from the school.

- Understand the customer's request
- Identify the problem
- Understand why the work matters
- Consider who will benefit

2 PLAN THE WORK

Before picking up a tool, learners learn to think.

- Tools required
- Materials required
- Safe working practices
- Roles and responsibilities
- The steps needed to complete the task

3 COMPLETE THE JOB

Learners work alongside a skilled practitioner to complete authentic practical work.

- Practical skills
- Communication
- Teamwork
- Problem-solving
- Resilience
- Responsibility

4 CHECK THE QUALITY

Quality matters. Learners inspect their work.

- Is the job complete?
- Is it safe?
- Is it the best quality we can produce?
- Would we be proud to hand this over?

5 REFLECT & GROW

Every completed project becomes a learning opportunity.

- Skills gained
- Challenges overcome
- What they are proud of
- What they would improve
- Their next learning goal

THE CORE BELIEFS

AUTHENTIC WORK
Learning should have a genuine purpose.

REAL RESPONSIBILITY
Learners develop confidence when trusted with meaningful tasks.

PRACTICAL ACHIEVEMENT
Success is built through creating, repairing and improving.

POSITIVE RELATIONSHIPS
The strongest conversations often happen while working side by side.

LASTING IMPACT
Every learner should leave behind something they are proud of.

TRADITIONAL INTERVENTION

VS

THE MAKE & GROW METHOD™

IT'S MORE THAN AN ACTIVITY.

It's a different way of learning.

This isn't mentoring. It isn't construction training. It isn't behaviour support. It isn't vocational education. It's a practical learning methodology that creates real skills, real confidence and real impact.

REAL WORK • REAL SKILLS • REAL CONFIDENCE • REAL IMPACT

makeandgrowworkshop.co.uk

WHY DOES IT WORK?

Supporting learners. Strengthening schools. Building futures.

Every learner is different.

While many learners thrive in a traditional classroom, some benefit from additional opportunities to learn through practical, purposeful experiences.

The Make & Grow Practical Learning Programme is designed to **complement** the excellent work already taking place within schools by providing an alternative pathway for learners who engage best through authentic, hands-on learning.

Our aim is not to replace classroom learning—it is to build confidence, develop skills and create positive experiences that support learners in successfully accessing their education. Where appropriate, **the ultimate goal** is always to help learners return to, and succeed within, the classroom.

BENEFITS FOR LEARNERS

- ✓ Experience success through meaningful practical work
- ✓ Develop confidence and resilience
- ✓ Learn practical, personal and employability skills
- ✓ Build positive relationships with trusted adults
- ✓ Develop independence and responsibility
- ✓ Experience pride through contributing to their school community
- ✓ Increase motivation and readiness for learning
- ✓ Build the confidence to engage more successfully within the classroom, where appropriate

Helping learners believe in themselves and their potential.

A DIFFERENT APPROACH TO ENGAGEMENT

Instead of asking,

"Can you complete this activity?"

we ask,

"Can you help us solve this real problem?"

BENEFITS FOR SCHOOLS

- ✓ Complements existing classroom practice and interventions
- ✓ Provides an additional pathway for learners requiring targeted support
- ✓ Supports SEND, SEMH, Alternative Provision and EOTAS provision
- ✓ Helps learners build the confidence needed to access learning more successfully
- ✓ Creates meaningful evidence for EHCP reviews and annual reviews
- ✓ Contributes to school improvement through authentic learner-led projects
- ✓ Strengthens learner ownership and pride in the school environment
- ✓ Works collaboratively with school staff to support positive long-term outcomes

Working in partnership to support every learner to succeed.

Working together to bring out the best in every learner.

AUTHENTIC WORK CREATES OPPORTUNITIES

First success builds confidence.

Confidence encourages engagement.

Engagement develops new skills.

New skills create further success.

Over time, these positive experiences can support learners in re-engaging with wider aspects of school life.

OUR PHILOSOPHY

"Authentic work is the vehicle for success."

Every practical project provides an opportunity to develop confidence, resilience and transferable skills. These positive experiences help learners take their next step—whether that is returning to the classroom, increasing their engagement with learning, or progressing towards greater independence.

WE DON'T REPLACE CLASSROOM LEARNING—WE HELP LEARNERS BECOME READY TO ACCESS IT.

REAL WORK
Real problems.
Real purpose.

REAL RELATIONSHIPS
Positive connections
build trust and growth.

REAL GROWTH
Skills, confidence and
resilience for life.

REAL IMPACT
Stronger learners.
Stronger schools.
Stronger communities.

Building brighter futures together.

WHAT MAKES THE MAKE & GROW PRACTICAL LEARNING PROGRAMME DIFFERENT?

Every project has a purpose. Every learner has a role. Every achievement builds confidence.

TRADITIONAL PRACTICAL ACTIVITIES

- Activity chosen by the adult
- Focus on completing the task
- Simulated classroom learning
- Finished project is the outcome
- Often a one-off activity
- Adult leads, learner follows

THE MAKE & GROW PRACTICAL LEARNING PROGRAMME

- The school presents a genuine need or problem
- Learners complete authentic work with a real purpose
- Learners become part of the Make & Grow team
- Practical work becomes the vehicle for developing confidence, resilience and employability skills
- Every project contributes to long-term learner development
- Every success creates an opportunity to build the next success

IT'S NOT ABOUT BUILDING...

- A bench
- A planter
- A bird box
- A bug hotel
- A raised bed

IT'S ABOUT BUILDING...

- Confidence
- Responsibility
- Independence
- Practical skills
- Communication
- Pride
- Employability
- A sense of belonging

The Make & Grow Philosophy

**The project is not the outcome.
The project is the vehicle.**

Every authentic project provides an opportunity for learners to experience success, develop new skills and build the confidence to take their next step—whether that is greater engagement, increased independence or successfully returning to the classroom where appropriate.

— AUTHENTIC WORK → MEANINGFUL SUCCESS → LASTING CONFIDENCE

SKILLS EMBEDDED IN EVERY PROJECT

*Every project is more
than a build – it's a
learning experience.*

**REAL WORK.
REAL LEARNING.
REAL IMPACT.**

We don't just build projects.
We build skills, confidence
and futures.

These skills help learners
succeed in school, at work
and in life.

Through authentic, purposeful work, learners develop **practical skills**,
academic understanding, **personal growth** and **real-world experience**.

SKILLS THAT TRANSFER BEYOND THE CLASSROOM

Prepare learners for
further education,
training and employment

Develop the character
and work ethic needed
for life

Build the confidence
to aim high and
achieve more

Create pride in their
work, their school and
their community

AUTHENTIC WORK IS THE VEHICLE.

Skills are the Journey.

FUTURES ARE THE DESTINATION.

Real skills
for real life

Stronger
relationships

Greater
independence

THE MAKE & GROW ACHIEVEMENT PORTFOLIO

More than a record – it's a career building tool.

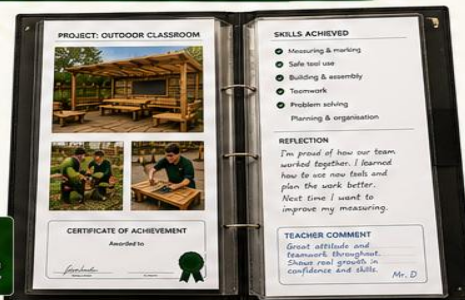

Learners can take their portfolio to interviews, open days and future opportunities to talk about real projects, real skills and the positive impact they've made.

Instead of saying,

"I'm good at teamwork."

They can say,

"I helped build this outdoor classroom for my school. I planned the work, used tools safely, solved problems as part of a team and delivered the finished project."

PERFECT FOR:

- Job interviews
- College & apprenticeship applications
- Training provider applications
- Showcasing workplace behaviours
- Building confidence and self-belief

A LASTING RECORD OF ACHIEVEMENT

Every project adds another chapter to the learner's story. We help them build skills, confidence and a future they can be proud of.

FREQUENTLY ASKED QUESTIONS

Everything you need to know about the Make & Grow Practical Learning Programme

We believe in practical learning that builds skills, confidence and brighter futures.

REAL PROJECTS.
REAL SKILLS.
REAL FUTURES.

CAN SESSIONS TAKE PLACE DURING THE SCHOOL DAY?

Yes.

Sessions are designed to fit around your school's timetable and can take place during lessons, intervention sessions, enrichment, alternative provision or EOTAS.

CAN PROJECTS SUPPORT EHCP OR LEARNER TARGETS?

Absolutely.

Projects can be planned around individual outcomes such as communication, confidence, teamwork, independence, fine motor skills and employability.

WHO CHOOSES THE PROJECTS?

Together.

Schools can select from our project library or identify real jobs around the school that learners can help complete.

WHAT HAPPENS IF THE WEATHER IS BAD?

No problem.

We have a range of indoor practical projects and workshop activities, ensuring learning continues whatever the weather.

IS IT SAFE?

Yes.

Every session is fully risk assessed with clear tool safety procedures, safeguarding, first aid and appropriate supervision.

HOW IS PROGRESS MEASURED?

Each learner builds a portfolio containing:

- ✓ Photos
- ✓ Skills achieved
- ✓ Reflections
- ✓ Teacher feedback
- ✓ Evidence of completed projects
- ✓ Next targets

Still have questions?

Every programme is tailored to your school, learners and priorities.
